

HAMID RAZA

Lead Software Engineer

+92 302 244 5255 @ hamiofficial@gmail.com github.com/ihamidraza linkedin.com/in/ihamidraza
Islamabad, PK

SUMMARY

Experienced Lead Software Engineer with over eight years of expertise in developing advanced engineering solutions. Proficient in full-stack development, specializing in creating scalable, user-focused applications. Demonstrated ability to leverage cutting-edge technologies to achieve project goals and enhance user experience.

PROFESSIONAL EXPERIENCE

Tech Lead

glasc.io 2022 - Present Johannesburg, SA

- Lead a cross-functional team of developers, ensuring timely delivery of high-quality software solutions and fostering a collaborative work environment
- Oversee the architectural design and implementation of scalable and robust software systems, aligning with business goals and technical requirements
- Conduct thorough code reviews, implement best practices, and ensure adherence to coding standards to maintain code quality and performance
- Collaborate with stakeholders to gather requirements, provide technical insights, and translate business needs into actionable development plans

Senior Software Engineer

glasc.io 2019 - 2021 Johannesburg, SA

- Design, develop, and maintain complex software systems using the MERN stack, ensuring high performance, scalability, and reliability
- Work closely with cross-functional teams, including product managers and designers, to identify and resolve technical challenges, ensuring seamless integration and delivery of software features
- Mentor junior developers, conduct code reviews and implement best practices to uphold coding standards and enhance overall team productivity

Full Stack Engineer

Graana.com 2018 - 2019 Islamabad, PK

- Design, develop, and maintain both front-end and back-end components of the web applications, ensuring seamless user experiences and robust functionality
- Integrate various third-party services and APIs to enhance the platform's capabilities and provide additional features to users
- Optimize application performance through efficient coding practices, load testing, and continuous monitoring, ensuring high availability and responsiveness

Backend Developer

Cloud Rangers 2017 - 2018 Letterkenny, IE

- Design and implement RESTful APIs to support cloud management functionalities, ensuring secure and efficient data exchange between services
- Optimize database performance and manage data storage solutions, ensuring high availability and reliability for cloud infrastructure management
- Develop automation scripts to streamline cloud operations and maintenance tasks, improving overall system efficiency and reducing manual workload

Backend Developer

uExel 2015 - 2017 Islamabad, PK

- Developed and maintained backend systems using Node.js and MongoDB, ensuring robust and scalable solutions
- Designed and implemented RESTful APIs to facilitate communication between front-end applications and backend services

EDUCATION

BS Software Engineering

University of Engineering and Technology

2011 - 2015 Taxila, PK

KEY SKILLS

JavaScript

TypeScript

Node.js

React

Express.js

Nest.js

Next.js

PostgreSQL

MongoDB

Cassandra

Redis

Docker

Kubernetes

Kafka

RabbitMQ

Elastic Search

AWS (EC2, S3 Bucket, Load Balancer)

Ant Design

Material UI

Tailwind

Generative AI

Python

OpenAI

KEY PROJECTS

Turing Insights

2019 - Present

Turing Insights is a cutting-edge logistics platform that enhances decision-making and operational efficiency through advanced data analytics.

Menar

2023 - Present

Menar is a specialized platform designed to manage access to mines and logistics sites. It facilitates controlled entry by vehicles equipped with valid access tokens, ensuring secure and efficient operations.

Listr.ai

2023 - Present

Listr.ai is a comprehensive platform listing AI tools across various domains, specializing in Generative AI and beyond.

Leza

2019 - 2021

Leza is a robust SaaS platform that simplifies authentication and authorization processes across multiple platforms.

Graana.com

2018 - 2019

Graana.com is a leading real estate platform that leverages advanced technology to transform the property buying, selling, and renting experience in Pakistan.
